TruthOps Investigation Report

Case: smoke8 \u00b7 **Run:** run-20261011-215121 \u00b7 **Date:** 2026-10-11
Mode: LIVE run \u00b7 **Trace:** `6c6ad276061aa0116d6dfddcdeba3ead`

Claim

Florida is '49th in avoidable hospital costs.'

Notes: Smoke test 8: mostly true; correct rank, slightly narrower framing than metric.

> **Verdict: MOSTLY_TRUE \u2014 90/100**
> Confidence: 0.93

Evidence

ID	Stance	Score	Reliability	GPTZero
`ev-claim-1`	supports	0.86	0.86	—
`ev-claim-alex-2`	neutral	0.42	0.7	—
`ev-claim-alex-3`	neutral	0.42	0.7	—

Audit Trail (key events)

- [sniff] proceed=True — passed sniff test — coherent allegation, full pipeline warranted (backend=clef-flash)
- Decomposed into 1 atomic claims: ['claim']
- [director] claim: next action = gather — no evidence yet — gather before any judgment
- [director] claim: next action = evaluate — evidence phase complete — evaluate the claim
- [director] claim: next action = escalate — initial verdict reached — escalate to contrarian for adversarial review
- Response plan built: TRUE. All external actions BLOCKED pending approval.

API Spend

Live API calls recorded: {'alexandria': {'calls': 2, 'credits': 0.0, 'usd': 0.0, 'operations': ['search+scrape']}}

Total spend: see breakdown

Approval Gate

All external actions BLOCKED \u2014 publish / post / notify awaiting explicit human approval.

Provenance: Pipeline sniff \u2192 evidence \u2192 scoring \u2192 contrarian \u2192 director. Repository: https://github.com/Mike-Demo/truthops \u00b7 Generated by TruthOps pipeline (neatHack 2026).
